PROFESSIONAL SUMMARY

Hi there! I'm Muhammad Arslan — a talented and focused Frontend Developer who values quality and timely delivery. I specialize in pixel-perfect UI conversions from Figma or other design tools into modern, scalable, and responsive web interfaces using React.js and Tailwind CSS. I've built over 1000+ production-ready reusable components in React and Next.js with strong knowledge of modern frontend ecosystems.

WORK EXPERIENCE

Frontend Developer at CypexSoft

2023 - Present

Over 2 years of experience in frontend development. Worked 1.5+ years specifically as a React.js Developer.

Translated complex Figma designs into clean, reusable React components.

Collaborated with backend teams to integrate REST APIs.

Optimized UI/UX across multiple web applications.

Delivered multiple SaaS products with scalable frontend architecture.
